## Two-pack water-based epoxy for floor coating

Epiname CF720 is a two-pack water-based epoxy for concrete flooring applications. It provides a serviceable, hard wearing finish resistant to vehicular traffic and common chemicals. Epiname CF720 is designed primarily for commercial and government flooring applications, and is also suitable for use on domestic garage floors.

Epiname CF720 has excellent chemical resistance. It is resistant to splash and spillage of general motor vehicle fluids (including brake fluid), dilute acids, most alkalis, hydrocarbon solvents and water.

Epiname CF720 is low odour compared with traditional solvent based floor coatings, low VOC (Volatile Organic Compounds) (<80g/L) and Green Building Council of Australia (GBCA)- Greenstar compliant for high performance coatings on floors. It is also available in a range of common flooring colours in both gloss and satin sheen levels.

For more information on Epiname CF720 water-based epoxy, or any other coatings from the Wattyl Industrial Coatings portfolio, contact Valspar Customer Service on

### The Valspar Corporation

The Valspar Corporation is a global leader in the paint and coatings industry. Since 1806, Valspar has been dedicated to bringing customers the latest innovations, the finest quality and the best customer service in the coatings industry. With more than 9,500 employees in over 25 countries, Valspar is in a truly unique position to supply customers with the coating solutions they need.

### The Wattyl Brand

Wattyl is a highly regarded and well recognised brand in Australia and New Zealand. Its innovative, quality products meet the challenges associated with the harsh extremes of the local environment. Products are designed to provide optimum performance, improve efficiency and reduce operating costs. Valspar acquired the Wattyl Group in 2010, further strengthening the Wattyl brand by bringing expertise and experience from one of the largest global coatings companies.

### Our Quality

Valspar is committed to quality in the design, production and delivery of its products and services. Valspar's local operations are certified to ISO9001:2008, its laboratories are accredited by NATA<sup>1</sup> and selected products have APAS<sup>2</sup> approvals.

### KEY PRODUCT FEATURES

- Low odour, low VOC, Greenstar compliant
- Hard wearing
- Excellent adhesion
- Excellent abrasion and impact resistance
- Excellent chemical resistance
- Resistant to vehicular traffic and hot tyre pickup
- Self Sealing

### USES

#### Commercial

- Show rooms, workshops, warehouses, sporting pavilions, car parks, loading docks, services and garbage rooms

#### Government

- Hospitals, institutional buildings, prisons, schools

#### Domestic

- Garage floors

### COLOURS

Note: colours shown are a printed representation and are indicative only. They should not be used for colour matching purposes.
